INSTALLATION INSTRUCTIONS:

It should be used exclusively in accordance with intended use
 Mount exclusively in specialized workshops

Mount exclusively in specialized workshops.

The connection between the lamp and vehicle's installation should be isolated with heat-shrink tube, or, alternatively, with isolating tape, to avoid getting water and moisture
to the copper wire of the lamp, which can damage electronic components. When it comes to lamp and plug, the plug should be mounted safely.

Do not cut off tinned ends

Lamps must be installed only in accordance with UNECE regulations

We reserve the right to change technical data and any errors. Photos and specifications are for reference only, and the actual product may vary slightly. Reproduction in whole or
